PORTUGUESE SOLDIERS AND SAILORS MUTINY

Governor Compelled to Expel Religious Orders and Obey Other Demands.

Macao, Island of Macao, China, Dec. 1.—The Portuguese troops of the local garrison and the crew of the Portuguese gunboat Patria revolted Tuesday night and, taking possession of the city, proceeded to enforce certain changes in the administration of the affairs of this dependency of Portugal.

The rebels continued in control all day, the governor and military officers powerless. The revolt began with the landing of the sailors of the Patria, who marched to the public square, where they fired three volleys as a signal to the troops who at once forced an entrance to the armory and, arming themselves, joined the seamen.

Several hundred strong, the rebels proceeded to Santa Clara convent, from which they drove the nuns, ordering them to leave the island. The nuns fled to Hong Kong.

From the convent the rebels marched to the government house, before which they mounted a cannon. An interview with the governor was requested and when the officers at the government house intervened they were silenced at the point of the bayonet.

The governor was compelled to hear the demands, which were the expulsion of the religious orders, increased pay for the army and navy, the suppression of the newspaper Vida Nova and the righting of alleged wrongs suffered by the soldiers and sailors.

Under threat the government granted every demand.
